

We All Know

There is a popular belief that eyes cannot be properly fitted outside of an oculist's office, but we are constantly proving the incorrectness of that belief. If you have a dull pain about the eyeball, or if, when reading, the letters seem to run together, call and be relieved. We charge nothing for examination, and guarantee satisfaction in every case.

MATTINGS.

The time has come to take up the old carpets—dusty, stale and worn with use—and substitute neat, cool and pretty Mattings. Humbug is rampant in Straw Mattings. The market is full of Mattings that are barely worth the tacks and ironing necessary to put them down. Against such stuff and the humbug methods employed for its sale we put a regular, carefully-selected stock at prices so low true and honest competition cannot meet them.

AS AN INDUCEMENT,

To visit our Matting Department, which will afford the most confirmation of our claim to the best selected stock of Mattings in Mayville, we offer genuine, serviceable Shing Matting in Oriental effects and designs for 1c. yard Friday and Saturday. Not our fault if you arrive too late. This bargain is too real to last long and in your appreciation of it don't fail to count the fact the Tariff will make all Mattings higher priced next season. More elaborate Mattings in all colors and at all prices.

"The best way to get rid of a bad law is to enforce it."—General Grant.

A St. Louis clergyman says that the earth will pass away before the year 2030. But unfortunately, says The Chicago Post, he neglects to state which one of the several claimants who are after it will get it.

UNCLE SAM has an "auxiliary" Naval fleet of sixty-four merchant vessels, which can be converted into armored cruisers with 392 guns. What's the matter with sending this fleet after the Spanish torpedo boats, and let the latter exhaust its ammunition on it? When this is done, our regular war vessels could have a whole lot of fun with the Don's—by capturing every ship they had and towing them into port. However, this is only a "land lubber's" idea of Naval warfare, and there's no patent on it.

SIMON BOLIVAR BUCKNER, a distinguished Confederate General and ex-Governor of this state, was a few days ago asked his opinion as to President McKinley's course in the Spanish controversy; and here's what he said:
"As far as it is apparent to the public his course merits general approval. As the executive head of the Government he recognizes his duty to maintain peace as long as it is to be done with honor. He has very properly avoided hasty action and seems determined that our action shall be so just that it will meet with the approbation of the civilized world. He has himself witnessed the horrors of war, and does not desire to plunge his country needlessly into an armed contest with any other Nation. As the responsible head of a great Government, he feels that he has no right to subordinate his patriotic duties to a manufactured public clamor."

PATRIOTIC CATHOLICS.
Lexington Y. M. I. Unanimously endorse President McKinley's Course Toward Spain.

At a recent session of the Y. M. I. at Lexington these resolutions were adopted unanimously:

WHEREAS War between Spain and our beloved country seems inevitable therefore, be it
Resolved, That while we deplore war and its awful results, we feel that the limits to treachery and injustice; that life and property must be protected; home and justice held sacred and inviolable.
Resolved, That in their defense and protection we stand as a unit with our President and Congress in whatever action they may take.
Resolved, That we look upon the cool, conservative course of our President as the truest test of a good man, a wise executive and unflinching soldier and patriot.

FLOTSAM—JETSAM—LIQAM!

NEWLY NOTES FROM NATURE'S GREAT HIGHWAY.

The mouth of the Big Sandy river is completely blocked with timber.

The Fred Wilson passed down with 12 coastboats and 7 barges for New Orleans.

On account of the miner's strike there is not very much coal loaded at Pittsburgh.

The Josh Cook, James Moren, Jim Wood and J. C. Risner passed up with tons of embers.

The Ohio and tributaries are falling fast at every point, the gauge at Pittsburgh showing 5 feet scant.

Gray's Iron Line has placed orders at Pittsburgh for six square model-barges each of 600 tons carrying capacity, to be used exclusively for manufactured products.

The Government had purchased the large ocean-going tug paying for it \$125,000. The Robert W. Wilcox is said to be the most powerful tug in the United States. She was built last fall at Bay City, Mich., and taken to New Orleans by way of the great Lakes, St. Lawrence river and the Atlantic Ocean. It was upon this journey that Captain W. G. Wilcox died suddenly.

Last Monday Captain Edgington sold the steamer William Duffey to Captain M. Duffey of Marietta, a brother of Colonel William Duffey of Hinghamport, for whom the boat was named. She will be run in the short trade between Marietta and Waverly, W. Va., making four round trips a day. This leaves the Edgingtons with one steamboat, the M. P. Wells, which will be run in the Portsmouth and Augusta trade for the present.

Considerable comment was made and surprise manifested by steamboat men during the recent flood at the comparative stages of water and Pittsburgh and Cincinnati. While there was 10 and falling at Pittsburgh, there was 60 feet and rising at Cincinnati. Inquiry was made as to the natural fall of the Ohio river bed or slopes between these points, and in order to secure the official record embracing points from Pittsburgh to Cairo, Ill., Major W. H. Bixby, Corps of Engineers, U. S. A., stationed at Cincinnati, furnished the following figures, which may prove valuable to river men generally: There are 55 feet an absolutely correct and reliable measurement of the Ohio river distance and slopes. Those so far made differ amongst themselves by from 1 to 2 per cent. Their average is as follows: Pittsburgh, Pa., to Wheeling, W. Va., 90 miles, 75 feet fall; Wheeling, W. Va., to Parkersburg, W. Va., 62 miles, 50 feet fall; Parkersburg to mouth of Big Kanawha, 30 miles, 47 feet fall; mouth of Big Kanawha to Cincinnati, O., 203 miles, 77 feet fall; Cincinnati to Louisville, 132 miles, 40 feet fall; Falls at Louisville 32 feet; Louisville to Cairo, Ill., 364 miles, 94 feet fall. The total fall of the Ohio River, 905 miles, 419 feet. The fall from Pittsburgh to Cincinnati, 466 miles, 299 feet.

DOCTOR DEBOW

There's a Lot More Trouble On de Ole Man's Mind.

HE HAS INDORED TOO MUCH.

An interesting situation has developed with reference to the appointment of an Assistant District Attorney to succeed Mr. Arthur Wallace.

It has been learned, says The Courier-Journal, that Senator Debow has strongly indorsed Mr. J. B. Wilcox of Carter county for the \$9,500 office, and also that he has written a letter to ex-Mayor George D. Todd of Louisville, saying he would take it as a personal affront if the name of Mr. Harry Smith, son of ex-District Attorney Smith, was urged upon him.

Mr. Todd declined to discuss the matter, saying he had no right talk about personal letters even if he had received them.

Yet it is known that he has received such a letter.

Hon. John Henry Wilson is out of the race.

He has never applied for the office and is not being considered at present.

A prominent politician said that District Attorney Hill had determined to recommend Mr. Harry Smith, if he took any one of the present applicants.

They are, besides Mr. Smith, Mr. J. B. Wilcox of Carter county and Mr. J. G. Fitzpatrick of Middleborough.

If this is true, Senator Debow's indorsement of Wilcox will not count for anything.

While the Senator indorsed Mr. Hill, yet there are some grounds for believing that he wanted some one else appointed, and their relations are not of the most cordial, though there is no open breach.

It can be stated positively that Assistant Wallace will retain his office until May, and possibly until the end of the Court term in June. His services can hardly be dispensed with during the Paduch and Owensboro terms.

So the applicants will have at least a month to fight over this one remaining good Federal office.

John Colegrove of Dainesburg gets a pension of \$8 a month.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only cure known on the market. It takes internally in doses from two drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Address, F. J. Cheney & Co., Toledo, O.

Sold by druggists, 75 cents.
